

## ELA (English Language Arts) Score Report Overview

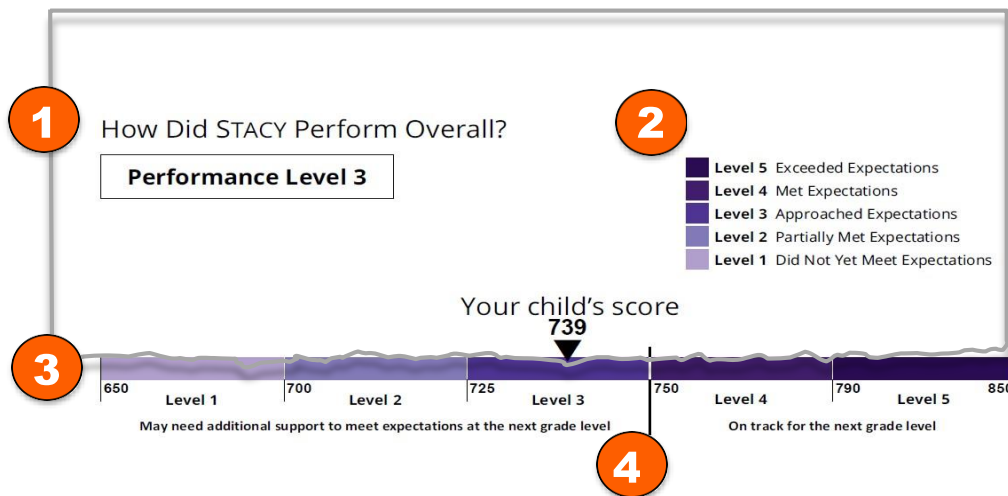

PARCC measures how well students are meeting academic expectations and learning the knowledge and skills they need to stay on track in school and after high school – in college or a career. The test measures complex skills like critical thinking, persuasive writing, and problem-solving. It is just one of many ways that teachers and schools measure whether your child is on track for success.

Teachers use the scores to improve teaching and learning, and to customize instruction to meet each student’s needs. Parents receive one report for ELA (English Language Arts) and one for math.

Continued improvements are being made to the PARCC assessment. This year, the NMPED has reduced testing time by an additional 30 minutes for most grades. The testing window will also be shorter, providing 10 more days of instruction for teachers and students. More over, the state returned PARCC results to districts earlier than ever before, ensuring that your district can use the data to make instructional decisions that best meet the needs of your child.

NOTE: Below is a sample score report. It does not include your child's scores or information. Ask your child’s school for his or her score report.

## Key Information in the Score Report

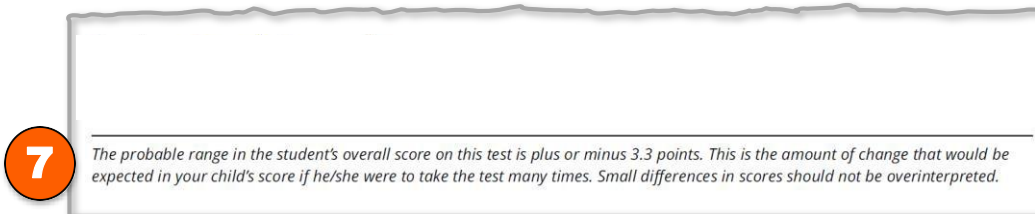

- 1 How did your child do overall?** Your child's score (see below) fits into one of five performance levels. Level 1 is the lowest performance level; Level 5 is the highest. See #2 for an explanation of what each level means.
- 2 What does each performance level mean?** Level 4 is the target. It shows that your child has met expectations and is well prepared for the next grade level. (This is what some states call “proficient.”) Levels 1, 2 and 3 show a child did not fully meet expectations. Level 5 shows the child did better than what is expected for the grade level.
- 3 What was my child's score?** The purple bar graph shows the score ranges for each performance level. In addition to the exact score, the black triangle shows how close your child's score is to the next performance level.
- 4 Is my child on track?** The words under the purple bar graph show that students who score at Level 1, 2, or 3 may need extra help to be successful at the next grade level. Students performing at Level 4 or Level 5 are on track for the next grade level.

Sample

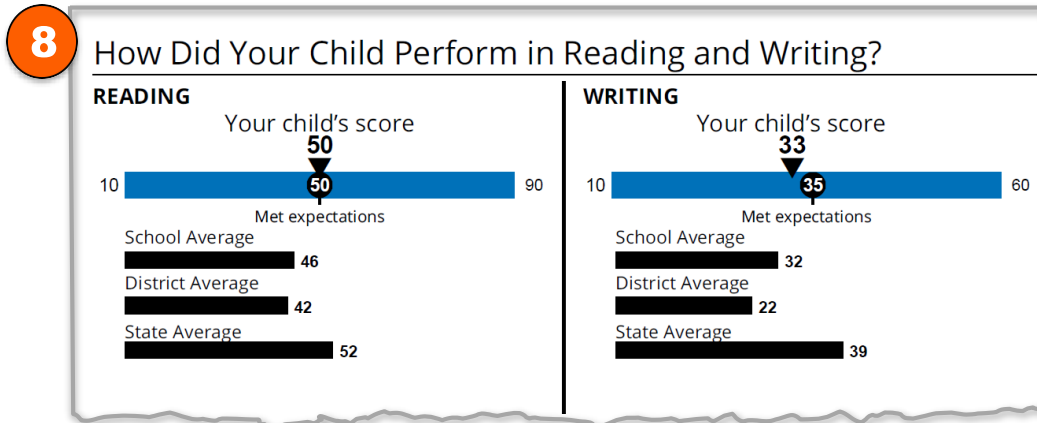

- 5** **How do I compare scores?** Unlike many previous state test score reports, PARCC score reports show how your student is performing compared to the average for students in the same grade in the school, district, and state.
- 6** **How did students in my state do?** This shows the percentage of students at each performance level in your state. This gives you a sense of how students are doing overall in your state, and how your child's performance compares.

Sample only

- 7** **How precise is my child's score?** Similar to public opinion polls, which have a "margin of error," test scores are accurate within a few points. If your child were to take the test on another day, his/her score might be slightly higher or lower. This shows the likely variation in scores for your child. Check your child's score report to see what the probable range is. *Not all states include the probable range in the parent score report.*

## Side 2 of the Parent Score Report

Sample only

**8** **How did my child do in reading and writing?** Your child received a sub-score on a set of questions in each area. Students who just met expectations score 50 in reading and 35 in writing. Higher scores show your child exceeded expectations, while lower scores show he/she has not fully met the expectations. You can also see the average score for students in the school, district, and state. These sub-scores do not add up to the overall score.

**9**

- LITERARY TEXT**  
Your child performed about the same as students who **did not yet meet or partially met expectations**. Students meet expectations by showing they can read and analyze fiction, drama, and poetry.
- INFORMATIONAL TEXT**  
Your child performed about the same as students who **approached expectations**. Students meet expectations by showing they can read and analyze nonfiction, history, science, and the arts.
- VOCABULARY**  
Your child performed about the same as students who **met or exceeded expectations**. Students meet expectations by showing they can use context to determine what words and phrases mean.

- WRITING EXPRESSION**  
Your child performed about the same as students who **did not yet meet or partially met expectations**. Students meet expectations by showing they can compose well-developed writing, using details from what they have read.
- KNOWLEDGE AND USE OF LANGUAGE CONVENTIONS**  
Your child performed about the same as students who **met or exceeded expectations**. Students meet expectations by showing they can compose writing using rules of standard English.

**10**

**LEGEND**  
Your child performed about the same as students who:

- Met or Exceeded Expectations
- Approached Expectations
- Did Not Yet Meet or Partially Met Expectations

**9** **How did my child do in different areas of reading and writing?** This section shows where your child is excelling and where he/she needs extra support. Each area, such as vocabulary and writing expression, includes a description of what it looks like to meet the expectations.

**10** **What do the arrows mean?** The arrows give you a quick rundown on how your child is doing compared to students who are meeting expectations. The legend explains that in words.

## How will my child's school use the results?

PARCC results identify where your child is doing well or where they may need more support. PARCC can be used along with grades and other academic measures to address any weaknesses early on so your child can receive the support they need to get back on track.

Teachers can use results to improve their instruction or tailor their teaching to students' individual needs. Schools and districts can use the report information to better plan instruction, support, and enrichment for students. Parents can use this information to understand their child's needs and strengths and work with their teachers and school to support their child at home.

## How can I use my child's score report?

It is important to have regular check-ins with teachers to help ensure your child is learning the skills necessary to remain on track.

Ask your child's teachers:

- What do you see as my child's academic strengths and areas for improvement?
- How will you use these test results to help my child make progress this school year?
- How can I help my child at home?

Ask your child's principal or teacher for information on the school curriculum and the types of learning experiences provided to students. You may also wish to ask about how local and state test results contribute to school improvements.

## Where can I find more resources?

- [The PED Family Webpage](#) - Check out the PED's *BRAND NEW* webpage just for families. It's chalk full of resources for parents.
- [Understand the Score Report](#) - View sample test questions and learn more about how parents and teachers can use the information from the score reports.
- [National PTA Parent Webpage](#) - Learn more about grade level expectations and view the PTA's parent guides for student success.
- [Be A Learning Hero Website](#) - Tips on how to help your child succeed in school.
- [GreatSchools Common Core Test Guide](#) - Find out what skills your child should learn at each grade level and how you can help at home
